

WIDE MOUTH SQUARE STACKABLE

Large lid opening facilitates mixing or agitating of liquids and cleaning, sanitizing or drying of the tank interior.

IDEAL FOR:

- Traffic Marking/Line Striping
- Paints
- Chemicals
- Adhesives and Coatings
- Inks & Dyes
- Pharmaceutical Lotions and Creams
- Lubricants
- Food & Beverage
- Wines & Spirits

ADVANTAGES VS. ONE WAY CAGED IBCS

SNYDER WIDE MOUTH SQUARE STACKABLE

- More durable, 1/2" HDPE wall thickness is reusable hundreds of trips.
- Easier to clean with 18" lid opening and full access to container interior.
- Faster, more complete drainage with 2" full port valve and fully sloped bottom.
- Top design protects fill/vent ports and allows liquids to run off.

One Way Caged IBCs

- Thin 1/8" wall thickness limits reuse to a few trips.
- Small 5" lid opening restricts access to tank interior.
- Flat, warped bottom with smaller drain opening results in containers not draining completely, which wastes valuable contents and makes cleaning and/or refilling more difficult.
- Bottle top sags and liquids pool around lid opening when stored outdoors.

ADVANTAGES VS. Stainless Steel IBCs

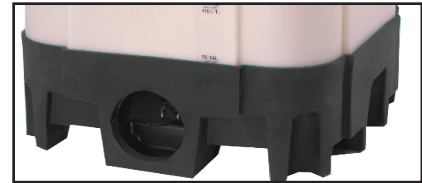

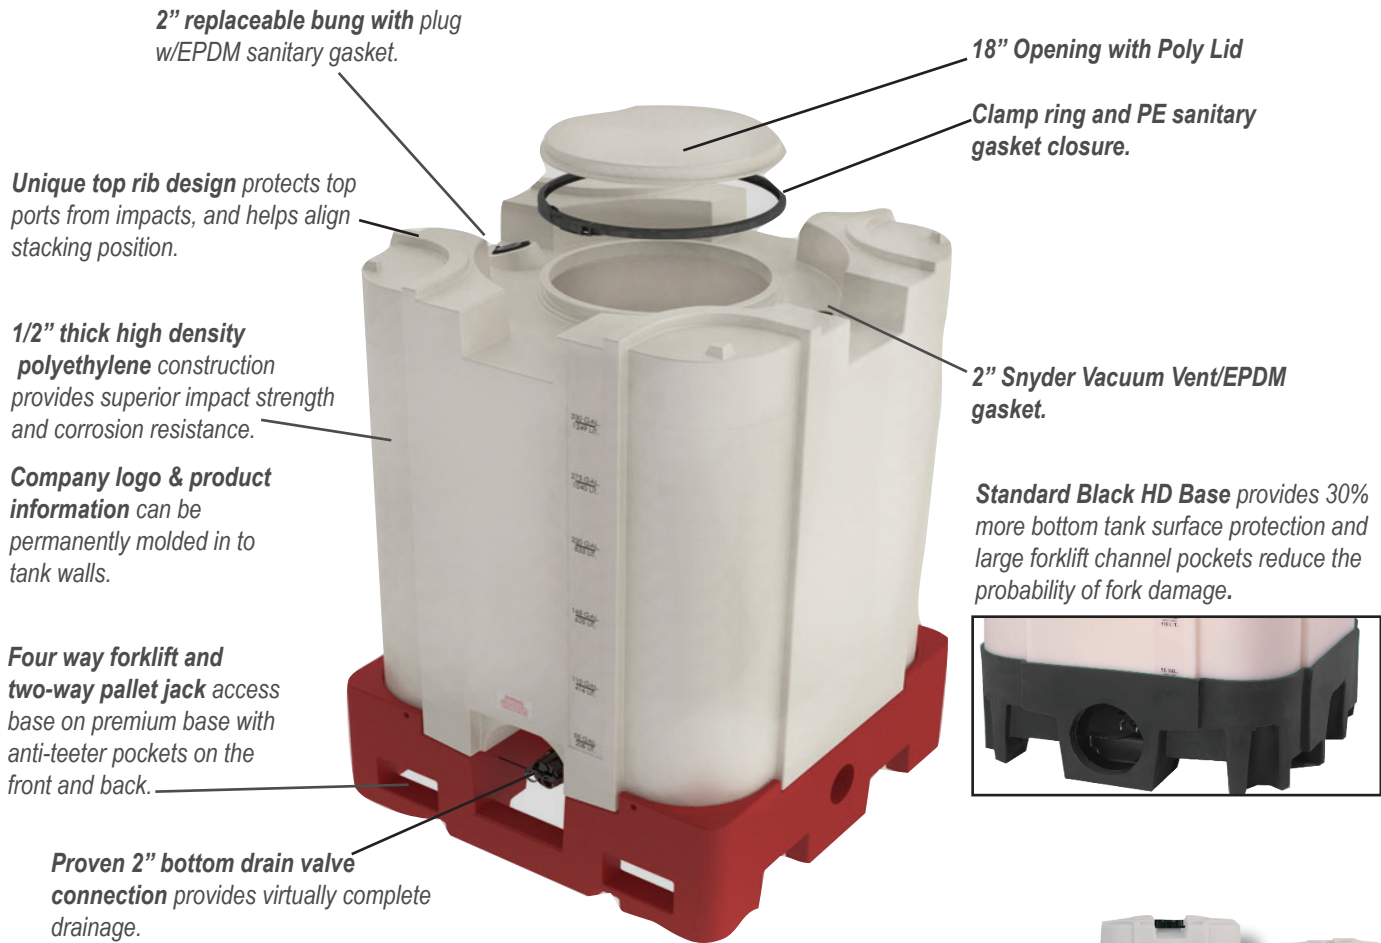

SNYDER WIDE MOUTH SQUARE STACKABLE

- Comparable useful life and function at a fraction of the cost.

Stainless Steel IBCs

- 3-4 times the cost

Specifications

Snyder IBC pallets are available in different configurations and colors to meet a variety of application requirements.

Square Stackable				
Capacity Gallons	Tare Weight	Length	Width	Height
330 Premium	257 lbs.	45"	45"	63 1/2"
330 HD	240 lbs.			59"
275 Premium	232 lbs.	45"	45"	56"
275 HD	215 lbs.			51 1/2"
220 Premium	211 lbs.	45"	45"	48 1/2"
220 HD	184 lbs.			44"

Stacking capacity is 2-3 units high (depending on container size, weight and temperature exposure).
 Note: All dimensions and tare weights are approximate.
