

- Durable rotationally molded high density polyethylene (HDPE) dumpsters.
- HDPE dumpsters won't rust or chip paint like steel dumpsters.
- Weighs 60% less than steel containers, lightening the load on truck arms.
- Secure metal lifting brackets are compatible with side loader trucks.
- Lift strengthening ribs on the sides and bottom.
- Double wall lid secured at multiple hinge points for added strength.
- Large capacities are ideal for high volume areas and require less frequent servicing by sanitation crews.
- Back ledge prevents lid from flipping over 270° so when the dumpster is set back into place, the back ledge makes it easier to dump and keep the lid closed.
- Higher chemical resistance than steel.
- HDPE molded products are 100% recyclable and are UV protected to resist surface fading.
- 1 year warranty.

Dimensions		
	2 Yard	3 Yard

Size		
Gallons	412	590
Cubic Feet	55	81

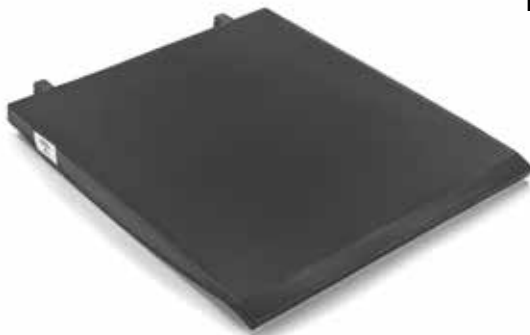

Low front for easy access

Side Load Truck Hook-up Arms

- Teeth or Pin Style Mounts
- Universal Fit (2 or 3 Yard)
- 10 Pre-drilled bolt holes
- 3/8" Powder Coated Steel
- Interior and Exterior Support Arms for Heavier Loads
- Hardware weight: 110 lbs.

Reinforced Double Wall Lid

Dumpster Lid

- Rotationally Molded - Double Wall Construction
- HDPE Black Plastic and UV Protection
- Lids offer a watertight seal
- Each lid has two point contact
- Lids have molded-in hinge point
- HDPE Plastic Lid Pins
- Lid was designed so they won't slump, warp, or bend
- Rust Proof
- Lids open to 110°
